Overview

The Purpose of this project is to make a website that would showcase its homegrown musician legacy and talent in the music and music related industry. The website will have list of popular and legend musician from the state of Arkansas. The website will also contain information about musician, music and groups that came from the state of Arkansas. The website home page will contain search engine and the list of the Arkansas Musicians. The Second After putting any name out of that list and then hitting search it will show all the details about musicians and their music legacy. I am planning to put the list of musicians with their photos and one popular song of them on the 3rd page of the website. The website will also show how many people have visited website as well. The 4th page of the website will contain the upcoming musical events in the Arkansas.

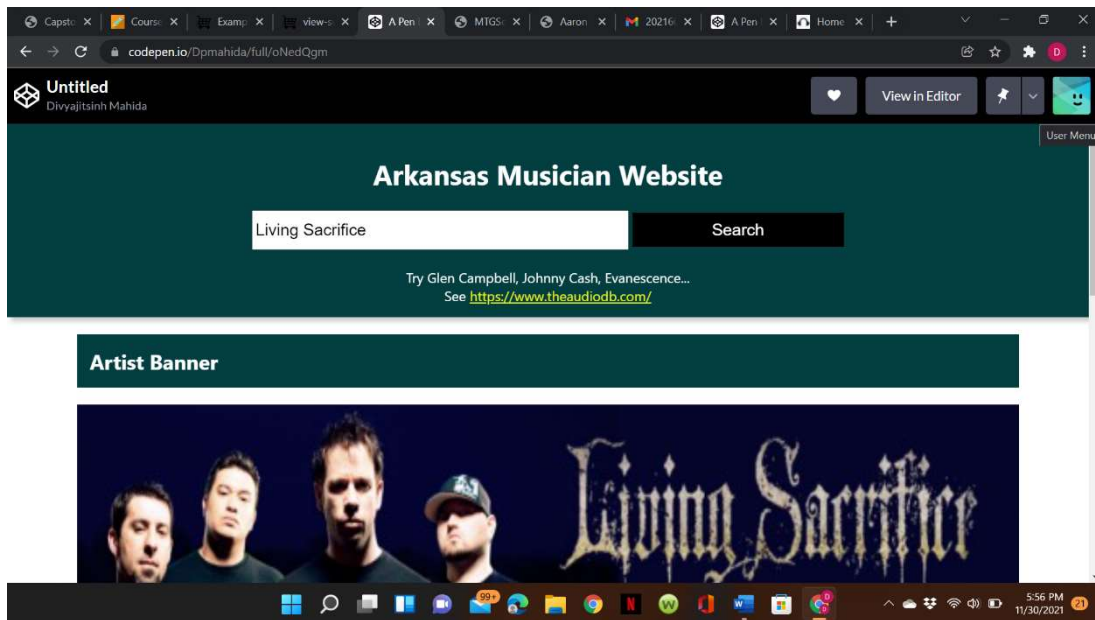

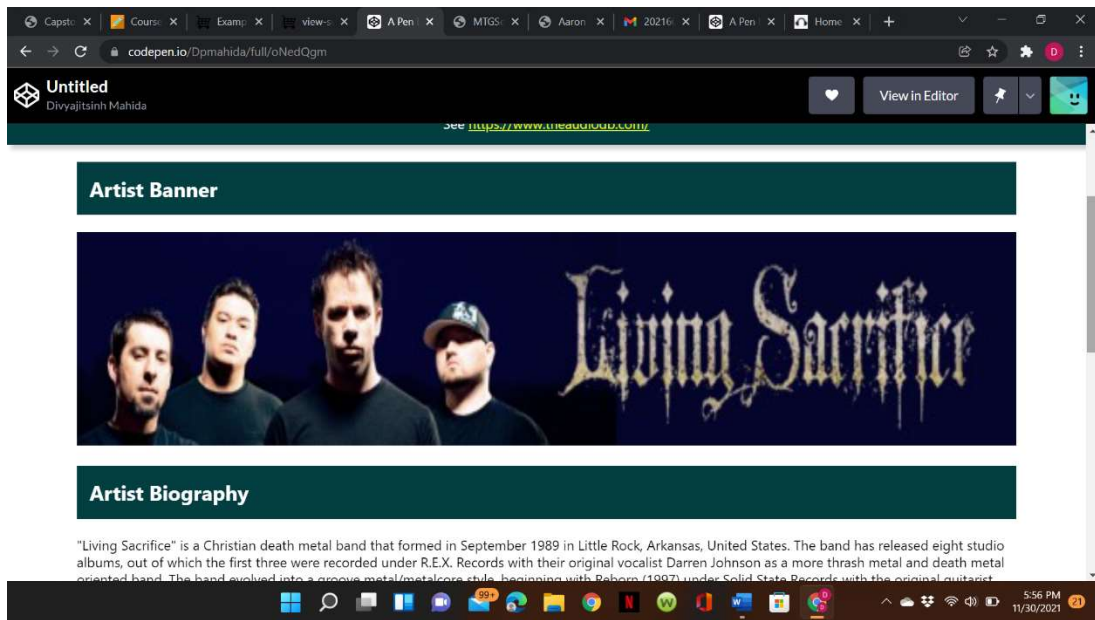

Homepage

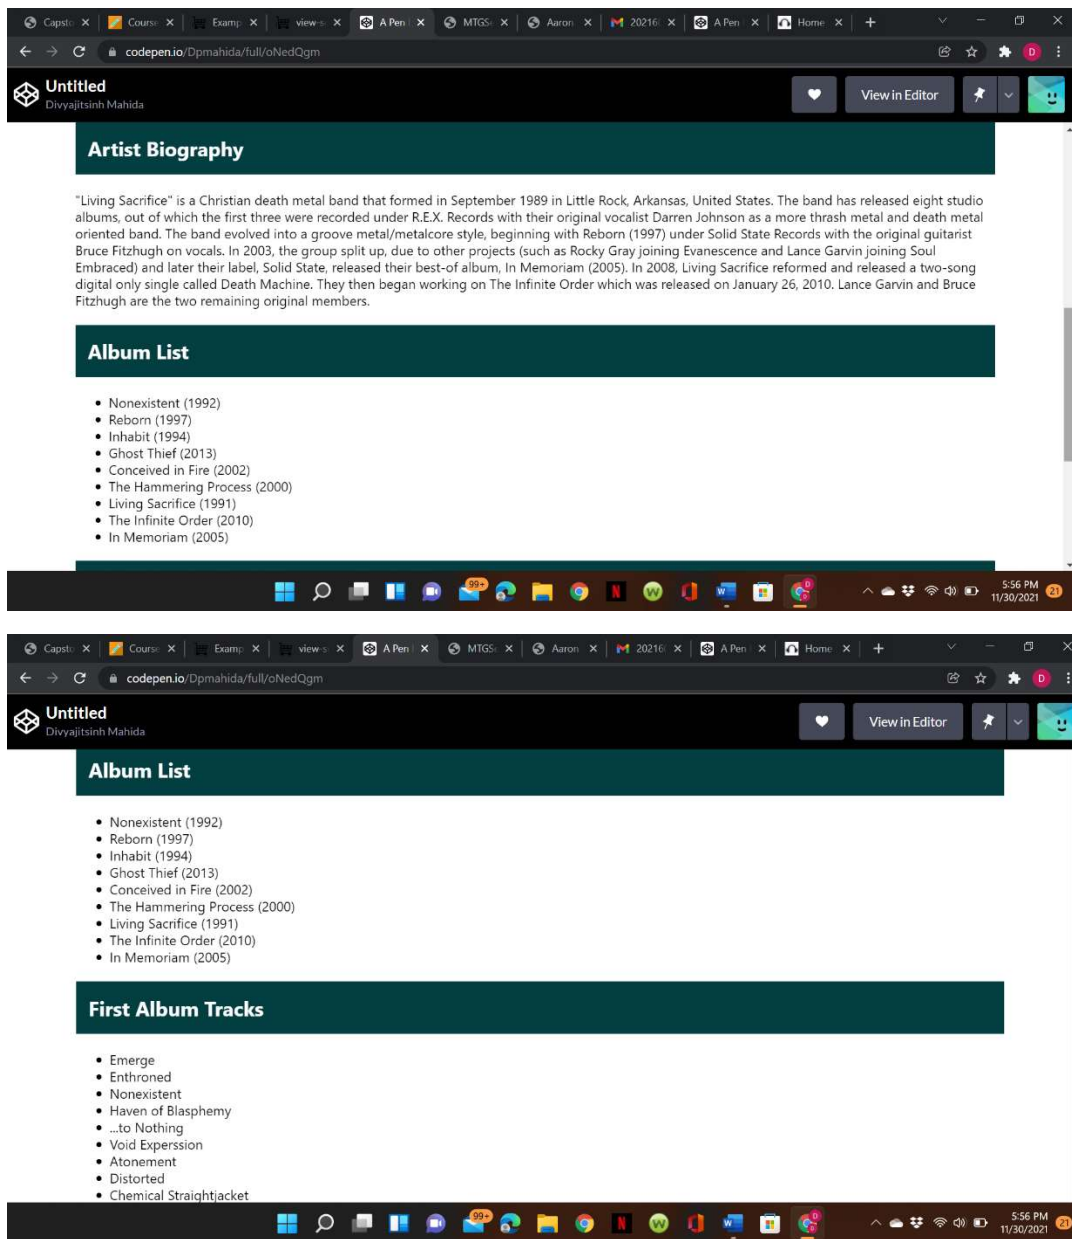

For the homepage for now it will be very simple and will just have the search engine name at the top Arkansas Musician Website, In the search bar the user will put the name of the musician. After hitting the search button, the website will give user an information about the musician. I have a photo of the current state of the website. It's not Final I am still working on it; I am going to add buttons to navigate user to 3rd page and 4th page. And I am going to add some photos on homepage as well.

The Second Page

After hitting the search button, the second page will open of the website. In the second page the user will be able to see all the information about the musician they are searching for. It will show them Artist Banner, Artist Biography, Album list and First Album Track about the artist user searching for. I have current state of the photo for second page. It's not Final I am still working on it.

The Third Page

On the third page I am planning to add the list of musicians with their picture and link to their one of the most popular song. By clicking on the link of the song, it will direct the user to the song website, where they would be able to hear the song. And by clicking on the picture, it will direct the user to the audiodb.com. I am still working on this part; it will need some more time to finish this part. So, I don't have any kind of photos or design for this page part. I have kind of rough draft of this part.

The Fourth Page

On the Fourth page I am planning to add all the upcoming events, which are going to organize in the Arkansas by month. The user will be able to see all the upcoming events, which are going to be listed by month. I will also try to provide link to that events ticket booking and more information. So, user can easily look for any event they are interested in and by following the provided link they can also book the tickets for those musical events. I have not gotten to this part yet, so I don't have any photo of this page. I have kind of photo of the example, what I am planning to do on the 4th page.

Country Music Festivals & Events

This directory brings you links to almost every country music festival or other related event in the world. Are you living in the USA or Canada? You're in luck, most of the bigger Western and Country Music events are organized in Northern America.

You can find smaller festivals like Blueberry but also the great big ones like Country Stampede and the Winstock Festival. Save the dates and go to one of the great festivals below:

- Big Valley Jamboree
- Blueberry Festival
- Cheyenne Frontier Days
- CMA Music Festival
- Country Concert
- Country Jam
- Country Night Gstaad
- Country Stampede
- Grey Fox Bluegrass Festival
